A quiet activity, away from animals

Be Gentle With Animals

Imagine a creature in the distance. You do not need a real animal, and there is no goal of moving closer.

---

1. Notice the distance

Stay where you are. Imagine plenty of open space and a clear way for the animal to leave.

2. Choose, only if you wish

Stay back / Ask an adult / Quiet voice / Leave room. Hands can rest on your own knees.

3. Keep the space open

No approach or touch is needed. An animal does not owe us contact.

4. Wait or leave

Wait without moving closer, or leave quietly. Neither choice earns contact. You may stop or change your mind.

An adult is responsible for safety and supervision around actual animals. Keep this practice make-believe.

Circle a choice, talk together, or leave the sheet blank. Nothing has to be completed. Keep any marks on paper; do not upload them.
